

Niobrara RS3 Cable

The Niobrara RS3 Cable is an RS-232 cable with a 9-pin female D-subminiature connectors at both ends. The connections between pins 2 and 3 are interchanged, so that transmit and receive signals are properly delivered when both connected devices have RS-232 ports with PC type connections (DTE), as in the case of a PC COM: port connected to ports 1-4 of a Niobrara SPE4-S.

Installation:

1. Connect the two RS-232 devices together with the RS3 cable.
2. Refer to the instructions for the connected devices.

The pinouts of the 9-pin D-subminiature connectors are as follows:

1	—————	no connection
2	—————	TXD (from device)
3	—————	RXD (to device)
5	—————	SG (signal ground)
4	—————	DSR
6	—————	DTR
7	—————	RTS
8	—————	CTS
